

Town of Sterling & Village of Fair Haven Local Waterfront Revitalization Program

Town of Sterling & Village of Fair Haven Local Waterfront Revitalization Program (LWRP) project is finally underway and we need your help! The town and village are seeking applications from community members to be part of the local advisory committee. Committee members will work with staff from the Waupaca County Planning Dept. to prepare a LWRP for the community. Local residents and business owners are encouraged to apply and participate on the advisory committee. Input from community members throughout the planning process is crucial!
